

Man In The Moon

Kim Sozzi

Only you can understand
The way I love my man
And only you knows what to do
When I need a hand

You're the only one who stays the night
You're my cradle and my spoon
You're the man, the man in the moon
My man in the moon

When I'm with you
Stars shine through
Fill me with romance
Each night is new
You know it too
When we begin to dance

You're the only chance I know is right
You're my cradle and my spoon
You're the man, the man in the moon

Come through my window
I never say no
And if you want to
Oh my man, my man in the moon
My man in the moon

You're the only chance I know is right
You're my cradle and my spoon
You're the man, the man in the
You're the man, the man in the
You're the man, the man in the moon
You're the man, my man in the moon
