

Scorpio

Kim Wilde

It looked good on paper
But paper can burn
With a death of a thousand cuts I have learned
My life is just the same
Still high and I feel no shame

Jump out the fire and into the flame
Make a rule for playin' a different game
Let's play 'rule the world'
Wave a big banner, proclaim the word
'Cause you know when you call my name
I'll be coming your way
Time and again

Done it again
I got the answer
Coming again
Ooh, I'm comin' at you
Drive you insane
'Cause it's a winner babe
Done it again
And there's no stopping it
Done it

Wanna join the band and discover the dream?
You're the star tonight when you're bangin' with me
All pleasure feel no pain
(No pain)
Music pumpin' through your veins
If you believe in the end
The music will guide the way
Love will remain
'Cause ya know

Done it again
I got the answer
Coming again
Ooh, I'm comin' at you
Drive you insane
'Cause it's a winner babe
Done it again
Everyone's a winner now

Done it again
It's what I'm dreamin' of
Coming again
A Scorpio sting in the tail
Drive you insane
'Cause I'm a winner babe
Done it again
And there's no stopping it
Done it

Everyone's a winner now

I got the answer
Ooh, I'm coming at ya

My life is just the same
(Just the same, it's what we're dreaming of)
Our lives are just the same
(Just the same)
There's no stopping it

Done it again
It's what I'm dreamin' of
Coming again
A Scorpio sting in the tail
Drive you insane
'Cause I'm a winner babe
Done it again

Everyone's a winner now
'Cause I'm a Scorpio baby

My life is just the same
My life is just the same
My life is just the same
Our lives are just the same
Done it
