

## Shoot to Disable

Kim Wilde

Mirrored in your face  
Is a look that says it all

Boy I'm slow  
I've been uncertain  
Just couldn't be sure  
Now I know

You say it's over  
But just how long have you known  
(You better go now)  
But as you leave me

Shoot to disable  
Shoot to disable

Maybe I got careless  
Maybe it's true I ran too fast  
But on recollection it didn't do much  
So I pass

You're such a hard man  
Why can't you take steady aim  
(Just get it over with)  
Don't fool around now

Shoot to disable  
Shoot to disable

Oh what a fool I was to love
