

# Arrow Through My Heart

Kimberly Cole

You don't need to flash your credit  
I don't want your damn appeal  
It takes more than that to get it  
Give me something I can feel

Just so you know  
I'm ready go  
I got my beat on the ground

I got the fees  
You and your pleas  
I'ma be holding it down

It's all in my mind  
Don't waste my time  
Ready for another round

Aim for the heart  
That's where it starts  
Show me how you make it count

If we are gonna feel g-g-good  
If you want it all ni-ni-night  
If you win it, we c-c-could  
You gotta do it just right

Push your arrow through my heart  
Push your arrow through my heart

I need it good  
It almost hurts me  
When you give through it deep

Just twist  
Make it pierce me  
Give me something that I can keep

Just so you know  
I'm ready go  
I got my beat on the ground

I got the fees  
You and your pleas  
I'ma be holding it down

It's all in my mind  
Don't waste my time  
Ready for another round

Aim for the heart  
That's where it starts  
Show me how you make it count

If we are gonna feel g-g-good  
If you want it all ni-ni-night  
If you win it, we c-c-could  
You gotta do it just right

Push your arrow through my heart  
Push your arrow through my heart

[Garza]

Yeah, I want to feel good  
Yup, I want it all night  
Yes, I am the type  
That will give it to you, right

You say I ain't for your heart  
Cuz that what you want to decide  
L.O.B.E, never buy  
Don't leave me  
It be to hard

I'm not about the cash or clothes  
Like these other hoes  
You asking me for something real  
Something that you can feel

You can buy my love  
If you had a meal  
Let me handle it  
Let me take the wheel

Damn your heart  
Throw the key  
Take me to court  
And love my blade

If we are gonna feel g-g-good  
If you want it all ni-ni-night  
If you win it, we c-c-could  
You gotta do it just right

Push your arrow through my heart

If we are gonna feel g-g-good  
(You know we're gonna feel good)  
If you want it all ni-ni-night  
(I can go all night)  
If you win it, we c-c-could  
(I win it and we could)  
You gotta do it just right

Push your arrow through my heart  
Push your arrow through my heart  
Push your arrow through my heart
