Kimberly Cole

Your a superstar
Everyone knows who you are
You think, you think your so damn
Hot hot hot hot

Your a superstar
Everyone knows who you are
You think your everything but baby
Your not not not not

Superstar superstar
Driving in your fancy car
Wishin you could take me home
You got the lingo and the pedigree
Flip the script and get to me
But you just cant get off your phone

Dont mean to burst your bubble
Dont wanna waste your time
I've got the feeling
Your priorities are out of line
Even though i know your troubled
Your gunna do just fine
Youve rehearsed your lines
Now its time for you to shine

Your such a star you wanna take it away
Go on and take it away
You break my heart with every word you say
And toss it
Tear it up
Rip it up
Your gunna smash it

Shopping spree and limousines
Flash a little jewelery
You bought it all but im not sold
Audience will never see
The real coz you its vip
You gave your soul to get the role

Dont mean to burst your bubble
Dont wanna waste your time
I've got the feeling
Your priorities are out of line
Even though i know your troubled
Your gunna do just fine
Youve rehearsed your lines
Now its time for you to shine

Your such a star you wanna take it away
Go on and take it away
You break my heart with every word you say
And toss it
Tear it up
Rip it up

Your gunna smash it
