

Wild Side

Kimberly Cole

Take a walk on the wild side, with me
Take the good with the ugly, this love will bring
It's the foolish that eventually survive
And we know it's wrong but we're so far from right
I don't need you to go
I don't need you to stay
I just want you to love me, love me, love me
I'm not gonna go
And I'm not gonna stay
I'm just gonna love you, love you, love you
I don't need you to go
I don't need you to stay
I just want you to love me, love me, love me
I'm not gonna go
And I'm not gonna stay
I'm just gonna love you, love you, love you
I don't need you to go
Lay your head on my shoulder, tonight
Show me all of the bruises, from your lastfight
We don't have to be a hero to die
Sometimes we meet someone to heal back our side
I don't need you to go
I don't need you to stay
I just want you to love me, love me, love me
I'm not gonna go
And I'm not gonna stay
I'm just gonna love you, love you, love you
I don't need you to go
I don't need you to stay
I just want you to love me, love me, love me
I'm not gonna go
And I'm not gonna stay
I'm just gonna, love you, love you, love you
Take a walk on the wild side, with me
I don't need you to go...
Take the good with the ugly, this love will bring
I don't need you to go...
I don't need you to stay
I just want you to love me, love me, love me
I'm not gonna go
And I'm not gonna stay
I'm just gonna love you
I just want you to love me
I don't need you to go...
Go
Take a walk on the wild side, with me...
