# Fool's Gold

**Kimberly Perry**

The worst kind of heartbreaks are self-inflicted
Sometimes, the first taste gets you addicted
The road to hell's paved with diamond trinkets you think you ne
eded
Down the sink is where that cheap trick goes, so

Be careful what you're hitchin' up your wagon to
Your wheels might end up spinnin' out from under you
Might not like what you find ridin' off in that sunset
Might wanna chase your dreams right back to where you left
'Cause there ain't no
Horses in Hollywood, cowboys on Rodeo
Didn't do me no good foolin' with that fool's gold

Turns out my jackpot still owes me money
So I left the land of milk and honey
The high side of hindsight is it's 20/20
My lucky penny's sittin' pretty deep in Tennessee, so

Be careful what you're hitchin' up your wagon to
Your wheels might end up spinnin' out from under you (Out from
under you)
Might not like what you find ridin' off in that sunset
Might wanna chase your dreams right back to where you left
'Cause there ain't no
Horses in Hollywood, cowboys on Rodeo
Didn't do me no good foolin' with that fool's gold (Oh)

Foolin' with that fool's gold, oh no (Ooh)

I just took the long way home
On my own

Be careful what you're hitchin' up your wagon to
Your wheels might end up spinnin' out from under you
Might not like what you find ridin' off in that sunset
Might wanna chase your dreams right back to where you left (Bac
k to where you left)
'Cause there ain't no
Horses in Hollywood, cowboys on Rodeo
Didn't do me no good foolin' with that fool's gold

Foolin' with that fool's gold
Y'all know where all fools go
