

Keen

Kimbra

Let me tell you about me
I've been chasing the dragon
It's not what I wanted
Not what I imagined

Let me tell you about me
I'm a sucker for drama
Came from my childhood
Guess it came from my ma

Exit high
You look so fine
Once it's forbidden
All I can think of is crossing the lines
Now you're taking her
Up to the palace
Talk till late, get sedate
It's true that I'm jealous

That's how I know
That I feel some kind of way
It's not what I planned
My line in the sand is washing away
That's how I know
That I'm really falling in
I want tequila on the rocks
But gimme sea salt on the rim

Because I'm keen
Keen on you
Not keen on everything you've gone and put me through
Come clean
I'm keen on you
Now I'm feeling feelings that I never wanted to

Go on tell me about you
Are you trying to sleep over?
Are you trying to be with somebody that you ain't ready to get over?
Let me tell you the truth
I don't wanna waste (I don't wanna waste time)
Time with a man that's still got a lot of his demons to face
I got mine too
And I guess we're the same
We both wanna grow and Lord knows we both made mistakes
That's how I know
That I'm falling all in
Tequila on the rocks but give me sea salt on the rim

Because I'm keen
Keen on you
Not keen on all the things you've gone and put me through
Come clean
Cause I'm keen on you
And I'm feeling feelings that I never wanted to

I'm keen
Keen on you

Not keen on everything you've gone and put me through
Come clean
Because I'm keen on you
Now I'm feeling feelings that I never wanted to

Never wanted to, yeah
Keen on you
Not keen on everything you've gone and put me through
So come clean
Cause I'm keen on you
Now I'm feeling all these feelings I never wanted to

Well did you ever really stop to think that I
Might feel the same way as you
Ain't no need for hesitation
I'm ready right now
What's the use in all this waitin'
Soon as we get up I'm taking you down
Down real deep, in a circular motion
I got you more open as I keep stroking
I hope that you don't think that this is
A one time thing
Cause I'm keen on you
You're keen on me
So let's get keen to freaky things and do it all night
I'm keen on you
You're keen on me
To do it all night
I'm keen on you
You're keen on me
So let's get keen to freaky things
I'm keen on you...
To do it all night
I'm keen on you
You're keen on me
So let's get keen to freaky things
