

Lightyears

Kimbra

Lightyears from everyone
Stranded on a foreign sun
Blacked out up on the edge
Am I the only one out here?
Dazed in the daytime light
Floating in a violet sky
Am I the only one?
The only one around out here?

Open my eyes I see someone I used to be
When I open my eyes, it's all coming back to me

Come and take me lightyears
Back to where we're from
We could be together
That's where we belong
Are you out there?
Come and send me a sign
As long as we're together
We could go wherever you like

Lightyears from everyone
I wonder what I have I become?
Washed up on a distant shore
Fall, but I come back for more

So fast, we're out of sight
Movin' at the speed of light
Pumping our hearts in time
Break through the atmosphere
So high that I can't stand
It's all coming back to me

Come and take me lightyears
Back to where we're from
We could be together
That's where we belong
Are you out there?
Come and send me a sign
As long as we're together
We could go wherever you like

As long as we're together
We can make it if you're ready
As long as we're together
We can go all night
We can make it if you're ready
As long as we're together
We could go, All night

Come and take me lightyears
'Cause that's where we're from
We could be together
That's where we belong
Tell me, Are you out there?
Can you send me a sign
As long as we're together

We could go wherever you like

As long as we're together (Night)

We can make it if you're ready

As long as we're together (Night)

We can go all night

As long as we're together (Night)

We can make it if you're ready

As long as we're together

We could go, All night
