

Stuff I Don't Need

Kimbra

Tell me how you really feel
Not halfway
Not half real
Don't complicate
Or get in the way
Just tell it straight
What you wanna say

I'm so over
Your undertones
I thought by now
You'd have let me know
The expectations
Yeah they were mine
Now I just want a simple life

Cause all that
All that
It just ain't good for me
It all adds up
It all adds up
To just more stuff I don't need
And I want love
And I want trust
I think that's all I need
The rest adds up
It all adds up
To just more stuff I don't need

You dance around
The diamond ring
We fill our lives
With a thousand things
But they don't matter
They're just forms of flattery
And all I want
Are the necessities

Cause all that
All that
It just ain't good for me
It all adds up
It all adds up
To just more stuff I don't need
And I want love
And I want trust
I think that's all I need
The rest adds up
It all adds up
To just more stuff I don't need

All this time I've been
Walking in my sleep
On the peripheral
Of a deeper part of me
So much I don't need
Staring back at me

Go on take it all
Cos I'm not keep anything

Cause all that
All that
It just ain't good for me
It all adds up
It all adds up
To just more stuff I don't need
And I want love
And I want trust
I think that's all I need
The rest adds up
It all adds up
To just more stuff I don't need

Tell me how you really feel
Tell me how
Tell me how

Tell me how you really feel
Tell me how
Tell me how
