

# You Love Me

Kimya Dawson

I moved around from town to town  
Lots of people around  
But still, so lonely friendships would grow  
Then I'd hit the road  
Making up excuses, for why I had to leave

Always been too scared and unprepared  
To let anybody get too close to me  
But, when I met you right away I knew  
You would never ever, ever hurt me

And the road's still long, but you come along  
And you hold my hand and you understand  
When I look at you, I can't believe it's true  
You're all I ever dreamed of and you love me  
And you love me and you love me
