

## Mr. Sun

Kina Grannis

The springtime brings out  
The brightest green in things  
And tiny sprouts push the soil from their wings  
Mr. Sun, please don't go away

Cause the winter saddened all the flowers  
And the oceans turned to gray  
And the sky cried down for days and days  
Mr. Sun, please don't go away

The birds and bees all sing  
Happy things as they fly into the sky  
And lonely trees will grow families in their leaves  
Mr. Sun, stay here won't you please

Cause the winter saddened all the flowers  
And the oceans turned to gray  
And the sky cried down for days and days  
Mr. Sun, please don't go away
