

## This Far

Kina Grannis

You know it's harder when you hold me  
You get me searching for the ceiling  
And though I've tried to forget things  
It's so hard  
So hard

So I'll keep going through the motions  
Creating comfort where there is none  
Coming to terms with the notion  
I'll be okay  
Okay

When rain falls down on me so hard  
The wind's unraveling me, don't start  
An ocean's swallowing up my heart  
But I've made it this far  
I've made it this far

It's hard to see a happy ending  
When you don't see how you can mend things  
But life is long and forgiving  
And it goes on and on and on

When rain falls down on me so hard  
The wind's unraveling me, don't start  
An ocean's swallowing up my heart  
But I've made it this far

And I'll keep wishing on a bright star  
That we'll keep drawing all the right cards  
And I'll keep singing when it goes dark  
Cause I've made it this far  
I've made it this far  
I've made it this far
