

Bad Man

King 810

I got this girl she's not quite of woman but tries time and again

She plays with her baton and she sings all day long

And she stands up for her man

She looks the other way when I do wrong

But I know she understand

You've got a bad man on your hands

She lies under oath for myself or for both

She'll take a charge and she'll take another life

She says that's the easy part as we sit in the dark underneath the stars every single night

Then she lay down and dies for me

And I know she understand

You've got a bad man on your hands

You've got a bad man

You've got a bad man

But when times got tough I wasn't a fan I never ran

Now I know your daddy don't approve of me 'cause I do what I want and he does what he can

You've got a bad man on your hands

It's not that my daddy don't approve of you, you know he's just been out all night

I left him there so why do I do with you I looked into the mirror saw the flashing light

I jumped on your lap threw my head back and said drive as fast as you can

I have a bad man on my hands

When you gave that bloody gun to me

It was still hot you know it burned my skin

The skin you dive in when I felt like I can't win and his soul braking down again

We pulled to the edge of the city

And as we both turn around

We said 'til death do us part

They'll have to peel us part

When they go to put us in the ground

You've got a bad man

You've got a bad man

But when times got tough I wasn't a fan I never ran

Now I know your daddy don't approve of me 'cause I do what I want and he does what he can

Girl you've got a bad man on your hands

I've got a bad man

I've got a bad man

But when times got tough I wasn't a fan I never ran
Now I know my daddy don't approve of you because you do what I
want and he does what he can
I've got a bad man on my hands
