

# Heartbeats

King 810

"How can we give them something new that's serious but entertaining too?"

The wind blows relieving the chain gang the whole thing  
The full moon the war drums lookin for a pulse here if Mother Earth's  
got one  
How far down can we really go  
Maybe all the way  
Well I don't know  
But when you get there tellem I sent ya  
And I want the army back that I lent him

Heartbeats

Like the earth is pulsating and there are shovels tearing into the ground  
And we gotta wake the dead up and we gotta wake the dead up now  
Like there are people in my city and they're demons and they're running  
all around  
It's enough to give a dead man a heartbeat

I walk through the graveyard like the police walk through prisons  
Knowing I put some of these boys here but these boys aren't as forgiving  
so they'll haunt me  
I dug him up cuz I missed him  
And I was all in and Ill soon join him and well settle our difference

Heartbeats

Like the earth is pulsating and there are shovels tearing into the ground  
And we gotta wake the dead up and we gotta wake the dead up now  
Like there are people in my city and they're demons and they're running  
all around  
It's enough to give a dead man a heartbeat
