

# Raindance

King 810

"Hello  
Hey boomer, you grew up during the Cold War, huh?  
Yeah  
That must of been terrifying?  
Yes, it was very bad on all of us  
How many people died in the Cold War?  
Well... uh... technically none...  
What do you mean technically?  
Well, it was very scary and tense times but it was a cold war not a hot war  
So cold war is a propaganda term you victims repeat to feel better about being tricked into a fear campaign?  
Well no, uh, it uh  
Lemme ask you what's the difference between your cold war era and right here and now today?  
Well...  
The answer is nothing"
