# Wolves Run Together

**King 810**

We rode side by side through the nite
I rode on the left you took the right
Felt we knew each other in a past life
Felt I'd reach my end tonight

Thought of all my friends tonight
What we'd done and where we'd been tonight
If I never see them again were we right
Wolves will run together tonight

Do you recall my hands
Do you know where they've been
You know I haven't been able to wash them clean
Since we were like 10

Tonight
Wolves will run together tonight

If they're scared of losing their life just kill 'em
Just kill 'em, just kill 'em
If they won't lie cheat or steal for us then kill 'em
Just kill 'em

We laid side by side through the night
You said you were tired too tired to fight
If we can make it here we can make it anywhere
But you went and disappeared into the night

Do you recall our spot where we would hide from the world
Do you remember I made you a woman when you were a girl

Tonight
Wolves will run together tonight
Tonight
Wolves will run together tonight

If all the good in me is because of you
Are you to blame for the bad too
Cuz I've walked holes inside my shoes for you

If they're scared of losing their life just kill 'em
If they won't lie cheat or steal for us then kill 'em
If they lay a hand on my brother then kill 'em
Just kill 'em, just kill 'em

If they're scared of losing their life just kill 'em
If they won't lie cheat or steal for us then kill 'em
If they lay a hand on my brother then kill 'em
Just kill 'em, just kill 'em

Tonight
Wolves will run together tonight
Tonight
Wolves will run together tonight

Tonight
If they're scared of losing their life just kill 'em

Just kill 'em, just kill 'em
Tonight
If they lay a hand on my brother then kill 'em
Just kill 'em, just kill 'em

Tonight
If they're scared of losing their life just kill 'em
Just kill 'em, just kill 'em
Tonight
If they lay a hand on my brother then kill 'em
Just kill 'em, just kill 'em

My bodys just something I'm using this life doesn't mean anything...
