

Slowly sinking in and out of light  
And I was always drifting in and out of my mind  
And I was thinking about you  
I was thinking of you  
I know its the middle of the night  
But can I tell you what's on my mind

12345  
Everyday's my last  
I wanna be somebody  
I wanna be somebody  
Worthy of the world  
Like I got somewhere to go

I will never taste another life or time  
Or tear apart the night from the day  
A troubled mind is where you lay your troubles  
Won't you let it go  
Won't you let it go away  
Oh, let it go away

12345  
Everyday's my last  
I wanna be somebody  
I wanna be somebody  
Untethered to the world  
'Cause I got somewhere to go

12345  
All I think is time  
I wanna be somebody  
I wanna be somebody  
Steady as she goes  
'Cause I'm walking on the world

Will life go by me  
While I tear into the night  
Will life go by me  
While I am whistling a tune

There must be something  
There must be something  
There must be something  
There must be something I can do...

12345  
Everyday's my last  
I wanna be somebody  
I wanna be somebody  
12345

Everyday's my last  
All I think is time  
All I think is time  
As life goes by  
As life goes by
