

Animal

King Charles

You were so wild in my dream last night
You were a slave to your animal delight
Bent like a bow (coiled adrenaline)
A siren sent (pomegranate pleasure)
I know your dreams and I know your delight
I'm yours today but you're mine in the night time

You're an animal
I am alive, anim-animal
Animals die, you're an animal
Who will survive, but you're mine tonight

Here is a rose in the prime of its death
Passion is the pollen that will stain your flesh
I know my dreams reflect the truth
There's an animal in me, I want the animal in you

You're an animal
I am alive, anim-animal
Animals die, you're an animal
Who will survive, but you're mine tonight

I was a slave in a dream last night
I want you girl, I want you tonight
I was a slave in a dream last night
I want you girl, I want you tonight

This is just a lover's passion (girl), I want you tonight
This is just my love for passion, what about my passion for love
All I want is to be living
This is just a love of passion, what about my passion for love
All I want is to be living
Real life, oh

I was a slave (real life, oh)
I want you girl, I want you tonight
I was a slave in a dream last night
I want you girl, I want you tonight
I was a slave in a dream last night
I want you girl, I want you tonight
All I want is to be living life by your side
