

Drive All Night

King Charles

Hey baby I wanna know what you feeling 'bout me
Cos I know it's been a while
Talk to me like you remember what we felt that day
Cos I know you were on fire

We were looking up underneath the metal sky
And there was silence in the night
Sooner or later we all get swallowed up by city life
We had nothing to lose so we drove all night

Hey baby I wanna know what you feeling 'bout me
Cos I know it's been a while
I don't wanna reminisce try to untangle this
But I know we were on fire

We were looking up underneath the metal sky
And there was silence in the night
Sooner or later we all get swallowed up by city life
We had nothing to lose so we drove all night

Sometimes it all comes back to me
Sometimes it all comes back
Sometimes we had to escape the pressure
And we had nothing to lose

Sometimes it all comes back to me
Sometimes it all comes back
Sometimes we had to escape the pressure
And we had nothing to lose
