

# Feel Every Minute

King Charles

We said we'd follow each other  
'Til we run out of air and water  
But we fell out  
Then we fell out

I remember [?] on those winter streets  
Your silk dressed and your high heels  
As we were living in a dream  
And we loved the way it all seemed

These things happen in Manhattan  
All the parties and the fashion  
All and all there is no limit  
Just to feel every minute

When you get to the top of the world  
There's nothing, that's what they all say  
But we had an idea  
You and me we would love it the hard way

We said we'd follow each other  
We said we'd follow each other  
'Til we run out of air

These things happen in Manhattan  
All the parties and the fashion  
All and all there is no limit  
Just to feel every minute

These things happen in Manhattan  
All the parties and the fashion  
All and all there is no limit  
Just to feel every minute

all my loving  
all my time

all my loving  
all my time

These things happen in Manhattan  
All the parties and the fashion  
All and all there is no limit  
Just to feel every minute

These things happen in Manhattan  
All the parties and the fashion  
All and all there is no limit  
Just to feel every minute

Just to feel every minute  
Just to feel every minute  
Just to feel every minute  
Just to feel every minute
