

This dust is cursed and empty
Earth full of footprints that I left
No chemicals, flowers, pills or powders
Could make this dark night fade

Elusive truth
Silent truth
Where were you
When I needed you
Oh truth

Well Hell is for dinner
It's time to run
The devil is the default why this world
'Cause east and west
Both lead me to death
Time is the [?] of my life

Elusive truth
Tired of truth
Where were you
When I needed you
Oh where were you
When I needed you

Time like life like love
It all comes and goes
(It comes and goes it comes and goes)
Yeah the highs stick to highs
To lows and away we go
(Away we go and away we go)
And I need a weatherman
To know which way the wind blows
(I don't care but I know that [?])
Time like life like love
It all comes and goes

Elusive truth
Tired of truth
Where were you
When I needed you
Oh where were you
When I needed you
Oh where were you
When I needed you

I'm talking to you
[?] truth
Break from the roots
As seen from the roof
