

# Bad Boy Back

King Combs

(Bad Boy... come out and play...)  
You know we had to do a remix right?

They said warm 'em up, Chris bring 'em in  
You know I rep the team like a letterman, all about the benjamins  
And if it don't make money, it don't make sense  
Real recognize real and I swear it ain't them  
I do things that make the ladies love you  
On a level that's way above you, I make your lady dub you  
Recognize when you talkin' to a boss  
I make my girl so fly, make my baby son you  
Bad Boy been the blueprint  
We just show you how to do shit  
When you press play, watch you move shit  
We came around and watched everybody's mood switch  
Lifestyle need Spike Lee to shoot this  
That's a movie, you never seen this before  
Clothes by groovy, you can't get it in the store  
Sweatsuit [?] just for the awards  
Next year CYN on tour, how you love that?

Everybody ask where Bad Boy at  
King Combs bringin' Bad Boy back, yeah  
And if you wanna know where Bad Boy at  
King Combs bringin' Bad Boy back, what?  
And everybody ask where Bad Boy at  
I'm just here bringin' Bad Boy back, uh  
And if you wanna know where Bad Boy at  
King Combs bringin' Bad Boy back, yeah

Uh, crowds we shake those, hits we make those  
Jets we take those, to Turks and Caicos  
We the ones that put you on that fly shit  
And it's never on some my shit, it's always our shit  
'Cause it's all about the benjamins baby  
On top like gravy, that's why they hate me  
Knew you was mad when you seen me with your lady  
Now she wanna have my baby  
'Cause the ladies love me, the girls think I'm handsome  
They wanna take pictures, they wanna see the mansion  
Lifestyle doin' shit you can't imagine  
Draped in the latest fashion, you talking to the flyest of the flyest

Everybody ask where Bad Boy at  
King Combs bringin' Bad Boy back, yeah  
And if you wanna know where Bad Boy at  
King Combs bringin' Bad Boy back, what?  
And everybody ask where Bad Boy at  
I'm just here bringin' Bad Boy back, uh  
And if you wanna know where Bad Boy at  
King Combs bringin' Bad Boy back, yeah
