

Be Free

King Dude

Last night I was free outside in the field
Where we both fell in love and I knew it was real
You put me outside, I was singing a song
You looked to the window but I was already gone

The willows whipping, licking like tongues
And our skin like the heavens, the clouds in our lungs
I saw my reflection in that dark dirty glass
I think about you and I think of the past

If you wanna be free, don't think about me
Don't you look in my eyes
Don't you hang around me no more
The thing that you want is what is killing me
Don't you dare take my hand
If you wanna be free, oh no

Your face like a painting, your historic mind
But you barely survived and you're barely alive
Those rules of lost days that we buried in time
I carried the baby, it felt dead inside

Well, you carried my child, I planted my seed
I know it was wrong but you know what I need
You saw it in my eyes when you were looking at me
You keep darkening my doorway, your love sets me free, oh

If you wanna be free, don't think about me
Don't you look in my eyes
Don't you hang around me no more
And the thing that you want is the thing that's killing me
Don't you dare take my hand
If you wanna be free, oh no, no
