

Cast No Reflection

King Dude

I am possessed, I guess
In need of an exorcist
A holy chief, a priest at least
No doctor can cure this disease
I'm fading fast, each breath my last
I'm drinking up my laughing gas
A different flask, demons pass
Through each and every looking glass

Now every moment I'm afraid
Of what I might do in your name
Your signature claw marks remain
Upon my flesh, a ruby stain
Well, I never wanted you to go
Well, I tried my best to let you know
That beyond the pale
No love can grow

You wanted to live like vampires
But you couldn't see
Us living forever
And what it means
To cast no reflection
To die in the sun
You cast no reflection
To anyone you have ever claimed to love

There was a time
When I once knew you
I couldn't see through you
Things are much different now
I can see the light
That's shining behind you
I guess you gotta get used to
People walking right through you now

You wanted to live like vampires
But you couldn't see
Us living forever
Or what it means
To cast no reflection
To die in the sun
You cast no reflection
To anyone who has ever claimed to love this bad
And now you're a ghost to me, hollow and free

You wanted to live like vampires
But you couldn't see
Us living forever
Or what it means
To cast no reflection
To die in the sun
You cast no reflection
To anyone who has ever claimed to love this bad
And now you're a ghost to me, hollow and free
