

## Devil Eyes

King Dude

You can sit right there and let your money talk  
My baby likes the way you walk  
My sugar's gone sweet on you  
I know you'll find out what she do  
She always finds out where that money lie  
You don't even know the reason why  
You just like the look of pretty things  
Fast cars and a diamond ring  
Yellow-haired girls who can really sing  
Songs about the Devil and what Jesus brings  
You're gonna find out where old Heaven lies  
Right in between my baby's thighs  
Right where you always thought it would be  
Close your eyes and now you really see

And if you're gonna fall asleep  
You might not live to see next week  
You'll be singing what the angels sung  
And you wouldn't be the only one  
She always finds out where that money lie  
You don't even know the reason why  
You're looking in the Devil's eyes tonight

Oh, oh  
Oh, oh

Now you're running where you used to walk  
Went and got yourself a deadbolt lock  
Got a pistol sitting at your chest  
And a woman who will never rest  
She always finds out where that money lie  
And now you know the real reason why  
You used to like the look of pretty things  
Fast cars and a diamond ring  
Yellow-haired girls who can really sing  
Songs about the Devil and what Jesus brings  
You're gonna find out where old heaven lie  
Right in between my baby's thighs  
Right where you'd always thought it would be  
Don't close your eyes unless you really see

And if you're gonna fall asleep  
You might not live to see next week  
You'll be singing what the angels sung  
And you wouldn't be the only one  
She always finds out where that money lie  
You don't even know the reason why  
You're looking in the Devil's eyes tonight

Oh, oh  
Oh, oh
