

## O' Darkness

King Dude

O' Darkness, tell me why you've come  
Is it wrong of me to sing you in this song?  
When you're made of candle light  
Burn it down, burn it bright  
Love to see you go in the night

O' Darkness, tell me what you've layed  
Do you miss me still? [?]  
When you're holding on to flames  
Burning up another day  
When we're down on luck, it's all the same

O' Darkness, tell me where you've gone  
Where you down on luck? Are you moving on?  
Was I holding on too tight?  
Kill the faith, kill the light  
Kill them all for you every single night

O' Darkness, tell me why I've wronged  
Did I hide what's supposed to die inside this song?  
When they keep you up tonight  
[?] with fright  
Do you know [?] are you still alright?

O' Darkness, tell me why you've come  
Is it wrong of me to see you in this song?  
When you're made of candle light  
Burn it down, burn it bright  
Love to see you go in the night
