

## Werewolves

King Dude

There will come a day when there are no days  
And the werewolves have their way  
And the only thing we are getting is armageddon  
When the werewolves have their way

There will be no light, children of the night  
When the werewolves have their way  
There will be no laughing, dancing or romancing  
When the werewolves have their way

And our only hope is to go up in smoke  
Our bodies boiled up in flames  
So that you may curse them and choke them with your person  
When the werewolves have their way

And our only hope is to go up in smoke  
Our bodies boiled up in flames  
So that you may curse them and choke them with your person  
When the werewolves have their way
