

# Ambergris

King Gizzard & The Lizard Wizard

Breathing heavy candles  
Cut a face from a smile  
Preserve the torch; its imperative  
So douse some fuel on the fire

Some dogs get whale eye  
Got a nose for that sea spice  
I wish that I had strength like that  
Dominion over my chemistry

Didn't you know?  
The camel's out of water  
The dog sweat on the seat  
Had me slippin' like a creep

Haven't you heard?  
They worked out double standards  
Apply only to me  
Finally, it's working  
Ambergris

Sculpting confidence with chimney smoke  
Record my weight in kidney stones  
CFC's gnaw at my intellect  
Colour coding my lymph nodes

Anthropomorphise everything  
Use my blowhole like a microphone  
Every night I dream that you will see  
The harpoon that I've grown to need

Apropos  
The camel's out of water  
The dog sweat on the seat  
Had me slippin' like a creep

Ergo  
I worked out double standards  
Apply only to me  
Finally, it's working  
Ambergris
