

## Converge

King Gizzard & The Lizard Wizard

Lo, a sight most dire and bleak from yon  
Celestial perch doth speak  
The earth shake  
The earth quiver  
As dazzling twisted pillars deliver

Thank God for space and that I'm here  
The vacuum black  
The last frontier  
Grey snakes slither across country  
Magnetising and converging

From the ISS, ungodly high, chaos madness  
Evolves below nigh  
A tempest of great force and might  
A storm of such unparalleled fright  
The winds do howl  
The rains do pour  
The lightning strike  
The thunder roar  
The elements rage in wild excess  
A spectacle of cruel finesse  
Houses, cities, torn asunder  
The havoc wreaked, a sight to wonder  
May the lord have mercy on us all  
Pray the storm which risen, thus shall fall

Trained forever to leave the ground  
The ruined harden  
Churning clouds  
Convergence be into the eye  
Storm dilates and people die

Converge, converge, converge, converge  
(Converge) converge, (converge) converge  
(Converge) converge, (converge) storm surge

I am removed  
I am a cloud  
In peering down, I am endowed  
Motor spirit, that brought me here  
Fly to the moon  
I have no fear  
The twisters worm as tyres burn  
The screeching rims  
Gale force winds  
The judgement day  
Murder tycoon  
Ground control from the bird's eye view

In wind tunnels stained red with blood  
All that was green to shit and mud

Morphing twirling to single beast  
Humanity  
Tantalising feast

Feast on blood of feckless  
Pull the tide like a blanket

The storm is the aether  
Quintessence and preacher  
Aura drinker  
Spirit shrinker  
The one true God  
Vile smile  
'Mental yolks  
Nymphs, sylphs and pygmy's choke  
Drink the blood  
Tasting Tchort  
What hath God wrought?

Converge, converge, converge, converge  
Converge, converge, converge, converge!

Hungry crawling fat grey rat snake seems  
Faster than the speed of light  
Snail trail through the green glade  
Killer zig zags and flying kites  
Watching from the silence of space at lords  
Converging in their place  
Combining fronts  
Ultimate quake

Mass destruction  
Challenging  
Human race unravelling

Converge, converge

Verily winds converge with force  
Deadly splendour over the course  
Immersed in a mouse trap for land  
Forever writ in nature's hand  
The land doth mourn  
The sea doth grieve  
For loss of life  
Destruction seen  
Verbose words fail to convey the horrors that  
This storm do slay

Converge, converge, converge, converge  
Converge, converge, converge, converge!
