

# Extinction

King Gizzard & The Lizard Wizard

I can see everything  
I can be in the music  
I can see everything  
I can be in the music

Knocking on extinctions door  
Prisoner of others war  
I see sullied, toxic seas  
Poisoned soil and felled trees  
Once paradise, now wasteland  
Shadow on the moon expands  
Set tries chaos, but too late  
To unseal our futures fate  
Yeah

Ex-tinction, extinction  
Ex- extinction -tinction, extinction  
Ex- extinction -tinction, extinction  
Ex- extinction -tinction, extinction

Era of rapid decline  
Become naught but dust of time  
Rain of sorrow from dread clouds  
Chang'e's tears have all dried out  
Jesus left us all alone  
Castles crumble with a groan  
Had a chance but let it slip  
Into heavens, tempest rips  
Woo!

I can see everything  
I can be in the music  
I can see everything  
I can be in the music

The archer drops their empty quiver  
Peacefully drowning in empty river  
Slip into the vast astral abyss  
And you can give space one last wish

You're a baby being born  
See the cable being torn  
Gravity-less asteroid  
Zooming out into the void  
Yeah

Ex-tinction, extinction  
Ex- extinction -tinction, extinction  
Ex- extinction -tinction, extinction  
Ex- extinction -tinction, extinction  
Ex- extinction -tinction, extinction  
Ex- extinction -tinction, extinction  
Ex- extinction -tinction, extinction  
Extinction

I can see everything

I can be in the music  
I can see everything  
I can be in the music

Magenta beckons like a lighthouse  
Hypnotised and pulled into a pulsar  
Music of the spheres calls me to it  
The last thought I think: "but, am I human?"

I can see everything  
I can be in the music  
I can see everything  
I can be in the music
