

## Float Along – Fill Your Lungs

King Gizzard & The Lizard Wizard

I saw you in the carpet shades  
Then I felt you like a baby's face

Just float along and fill your lungs  
Just float along and breathe a deep breath

I saw you in the paper folds  
Then I saw you in my coffee mug

Just float along and fill your lungs  
Just float along and breathe a deep breath

Just float along and fill your lungs  
Just float along and fill your lungs  
Just float along and breathe a deep breath  
Just float along and fill your lungs
