

Gliese 710

King Gizzard & The Lizard Wizard

Melt the ice
Reheat the dead
Terraform the planet
Compress the lungs
Eat the mushroom
Cool the lava
Watch the new star dance upon the night sky

Fly my pretty silver lining
Wishful thinking
Strike defiant
Send your prayers for Gliese 710
Locked and loaded
Death descends

Alien figures stumble sickly as their planet bakes
Constellations crumble quickly
On the horizon; cosmic waves
Shooting stars rain upon a distant planet
Hadron colliding
Forked lightning
Melting the cake's icing

Fragmentation
New permutations
Needlepoint mutilations
Stick the fork in the Powerpoint to be perturbed by revelations

Freeze the water
Kill the living
Bake the planet
Suffocate the lungs
Grow the mushroom
Feed the volcano
Watch the new star dance upon the night sky

Boil the water
Bury the dead
Destroy the planet
Collapse the lungs
Disintegrate the mushroom
Join the volcano
Be a cloud of gas upon the night sky
