

Kepler-22b

King Gizzard & The Lizard Wizard

Nerdy kid at school with astral thoughts
Wanted to be an astronaut
So I could be alone in space
Get away
Dreamt of Kepler-22b
That's the place for me

I didn't get the grades to be a NASA astronaut
Couldn't knuckle down or focus on my schoolwork
I became a ghetto engineer making shit out of glass
To refract the light from distant stars
Then I built a telescope
So big
Pointed it at Kepler-22b
That's the place for me

Good for ya
Obsession is good for ya
Good for ya
Obsession is good for ya

Can you guess the first thing I seen on Kepler-22b?
A telescope pointing back at me
On Kepler-22b
A telescope pointing back at me
On Kepler-22b
A telescope pointing back at me
On Kepler-22b
A telescope pointing back at me

Good for ya
Obsession is good for ya
Good for ya
Obsession is good for ya
Good for ya
Obsession is good for ya
Good for ya
Obsession is good for ya
