

# Red Smoke

King Gizzard & The Lizard Wizard

Red smoke  
The wools been pulled  
The dust won't settle  
Red smoke  
The fools still rule  
The screaming kettles

We're numb to the norm  
Every year it's clear that it ain't gonna disappear  
It ain't some passing storm we can hide from

Red smoke  
The wools been pulled  
The dust won't settle  
Red smoke  
The fools still rule  
The screaming kettles

Not the only ones stuck in a bubble of terror  
Watching them make all the errors  
Like a kid with a magnifying glass  
Each summer is getting hotter than the one before

Red smoke  
Go away heatwave  
You're all around, north to the south  
Red smoke  
Go away heatwave  
You're burning down  
Our leaders are dumbfounded again

The answer  
Plain as day  
The answer  
Plain as day  
Drastic measures  
Must be made  
Before we incinerate

Red smoke  
The wools been pulled  
The dust won't settle  
Red smoke  
The fools still rule  
The screaming kettles

Red smoke  
Go away heatwave  
You're all around, north to the south  
Red smoke  
Go away heatwave  
You're burning down  
Our leaders are dumbfounded again
