King Gizzard & The Lizard Wizard

Murder waits inside the wedge
Sharpening its sickle edge
Spading forks
Increasing spin
Screaming tin
Ruby slippers
Tap ya heels
In a spiral
Orange peel
Bodies flying on a rainbow
Run Toto
Lightning bites the jaws of hell
Whip crack the tortoise shell
Angle grinder, a welcome friend
Dorothy's end
'Tis best at night to stay afraid 'cos sirens sing
A bombing raid
Incant a blood-curdled yell

Supercell
The bombshell carousel raising hell

Supercell absorbing structures
Unforetold in biblical scriptures
Throngs of livestock in the air
Twisted stare
Pickup trucks blown to pieces
A rabble releases faeces
God's dead on barren corn fields
Prepare to yield
Countless crushed cars on West Main
Hills of Gaash flooding with flame
Rips bark from dying trees
Tempest breeds
The sky bleeds
Dragon feeds
The messiah on their knees
Jupiter laughs immortal
Supercell

Oh, cruel fate that hath befallen us
Oil-mad, spinning gaily in the tempest

The bombshell carousel raising hell

24 dead in my state
Motor spirit subjugate
Creator, a burning mouth
Carnage north, east, west and south
EF5
Force of nature
Demolition
Meet your maker

Throwing cities like leaves
Our mortal surface is wiped clean

Murdering everybody
Careless of theology
Good Christians pummeled anon
Agnostics, Armageddon
History is in the eye awaiting death while
Leaders hide
Futures locked by land and wind
Garden of Eden chagrined

Drowning wind
Gasp for breath
Plain snake
Omen of death
Drink the piss and smoke your meth
No one left
