

# Superposition

King Gizzard & The Lizard Wizard

Superposition, real world wisdom  
Everything is moving to the beauty of this system  
Total question, fearless reason  
We; one; I; many, superposition

Think between space's seams  
So your eyes close with my dreams  
Where truth exists in thought unbound  
You must know your superposition

Journey towards true destination  
Be in search of real direction  
All of a sudden, Heaven's unfasten  
The still will dance to superposition

Exist outside the lace of time  
And your heart will pump the blood of mine  
Trace your finger from birth to hearse  
And drink the cum of life  
Visualise your worth and see  
The place where you'll curl up to die  
Be the squid and be the ink  
Me the glass and you the drink
