

# Alone

King Iso

This shit sound like uh...  
You down to your last gram, right  
And you just chilling on the front porch, homie  
Brackin'

I be on the road doing dumb shows  
Getting hella love, countin' up guap  
But every time ISO gotta come home  
My niggas hella ugly and love stops  
Try and diagnose him but it's unknown  
The feeling that I'm getting everyone watch  
Sometimes I feel I really need to be alone  
And when I'm all alone I be like, "Um... not"  
But that's just my resort  
If I could just resort my thoughts that I overlook  
As I overlook an ocean while I'm at a resort  
Then I could reverse all this remorse to sum it in three words  
(Take a vacation)  
And leave all of the fraud I see  
Always be honest we all wanna get away from  
The evil is regardless, we are the rebels  
We are the kids y'all just think all are devils  
Won't be long and meddle  
Jail beds with a camera over our heads  
Eating meds all day and y'all think all are settled  
I recall the days I would wreak all the havoc  
Don't be shooting me wrong it be on the ghetto  
It seem like my angels and demons agreed on it  
Me mentally on my seesaw was level  
(Damn)

I'm hoping that I'm right like right away  
Because I could be wrong with it, might be  
I wanna be alone and I'ma die this way  
Or maybe I just want somebody like me  
'Til then I'm a loner if I find a way  
To cope with it, I'ma have to go and sight-see  
Smoking marijuana getting high today  
I'm low downing a Corona like it's iced tea  
Looking around as I say

I don't wanna be alone  
Looking around as I say  
I don't wanna be alone  
Looking around as I say  
I don't wanna be alone  
Looking around as I say  
I don't wanna be alone

Solo when I need to smoke on the weed run  
I don't wanna be alone, shit I need one  
I'm so sick of being broke but when the green come  
Here the funny people go again, rerun  
I thought a little bit of fame'll leave the beef done  
I was tryna get paid so I could eat some  
As long as my son fed and gotta Capri Sun  
Shit I could put the pen down and I could be done

An old soul but I seem young  
Been through just about everything under the sun  
Fast lane, the police come  
I'm impulsive so quick my pulse skipped a beat once  
I come from roaches and free lunch  
'Til my mama started getting hella guap because we need some  
I want your ball out of loan like "Look at me, son"  
I did it from her, what I would become  
Was probably sick of being shitted on  
I seen her helping everybody  
Even people she ain't get along with  
But I ain't tripping 'cause she really strong  
And got me thinking how the hell could she have did it wrong  
Her mindset that you ain't shit alone  
So that's what I'm gon do, my mama got me in a different zone  
You wonder what's going on like Marvin  
I'm finna get it on, but that's a different song

I'm hoping that I'm right like right away  
Because I could be wrong with it, might be  
I wanna be alone and I'ma die this way  
Or maybe I just want somebody like me  
'Til then I'm a loner if I find a way  
To cope with it, I'ma have to go and sight-see  
Smoking marijuana getting high today  
I'm low downing a Corona like it's iced tea  
Looking around as I say

I don't wanna be alone  
Looking around as I say  
I don't wanna be alone  
Looking around as I say  
I don't wanna be alone  
Looking around as I say  
I don't wanna be alone

I grew up on the corner with the crack fiends  
And no one's gonna sit and tell me that's equal  
Put up on a pedestal my black queens  
And the fact is, I still dream for my black people  
Looking out the window from the backseat  
Mind be playing tricks when you on tour  
I try to give 'em food off of my plate  
I ain't got much, people say they want more  
But that's reason for me to leave 'em in the street  
I delete 'em, no need of more for me to eat  
Gotta beat 'em I can't believe in no retreat  
I've competed and beat 'em all just on the beat  
Who's the god? When I'm on the road  
Hop up on a tour bus, do a hundred shows  
Hit the Mariat, just runnin' through these hoes  
But when I'm at the pad, um, nobody would know  
I be up in a room by myself just married to my music  
Look at how fast time flies, my mind I'm starting to lose it  
Living a life alone, I could've been on I thought I knew it  
And I don't wanna be sixty thinking "Man, I really blew it..."  
Screw it  
And I be on a weed boat, he goes  
Get the best of us and thinking I might do it  
Triv, you gotta live all night and day you wanna hit  
Running through the verse but hell, I might do it  
Lit, You need some brainsick it's coming right away  
I've come to play the venue with a big crowd

And walking through the fans shaking hands and  
Trying to find the girls with the big mouth  
Every day's a party when you living life  
Taking twenty shots a night then it's on  
Walk up in my house, throw my coat on the floor  
Kiss my kids, close my door, turn around, I'm alone

I don't wanna be alone  
Turn around I'm alone  
I don't wanna be alone  
Turn around I'm alone  
I don't wanna be alone  
Turn around I'm alone  
I don't wanna be alone
