

Game Changer

King Iso

I know I'm the king of my muthafucking city
And not just my city...
The world nigga!

I'm the king of this shit
I could never be stopped
Genius for the spit, like Edison, Tom
You weaker than a bitch it's no secret
It didn't mean it was missed, like a felony drop
Will I ever settle? I think not
Its either: sell a CD or pedel these rocks
Soon as the melody drop
I snap into this green like celery chop
I do it for the niggas that have never seen god
Put the pedel to the metal whenever they see cops
Banks outside I'm a melody God
I was there for my loc I'm ahead of yo block
Best hated because I left Aiden
Old homeboys and I told em dead gang it
Now I'm really brainsick
No catchphrases
Shoutout to west craven, like a kettle we hot
Niggas never grew up in the ghetto we watched
Grippin on the metal had hella heat cocked
80s baby when MJ was afraid and before you could ever meet Brock
You an MC did you ever beatbox?
In the hood with you man scrappin
Now every nigga is a kingpin with his pants saggin
Hes on a million watts
Niggas don't really want it with me
Imma killa, catch a nigga slippin
And I'm at a nigga [?]
I'm a check his ass and tell him leap frog
Better get a life or sleep softly

Revolution it'll be televised
Get the hella weak off me

Game changer
I just put my life into it
Half the time I'm writing to it
This is for who I influence
Game changer
Better than you guys who do it
Front those who don't like my music
On the low you riding to it...

Raps to this blasphemous to the back in this
Back in the day before Makaveli, was seating passenger
Haphazardous as an African slave master whip
Massive paper that's causin war just to take after it
I made half of these raps just to pay gas with it
Gift of gab vocally bro, I just state facts with it
Son of Sam gun in hand homie I stay taxin shit
Made massive hits, when you niggas try it...
It ain't happenin'
My brain is rocky like whatever chained Alice in

Fuck wonderland I took 88 addabenz
ADHD baby bring the straight jacket in
I just ate brain matter out of a lays bag of chips
Rapping this, day to me, actually hate actress
Can I fuck your face on stage and display some nasty shit
My niggas fat as shit
I freak the baddest chicks, ask the women
And I'm crazier than a motherfucker, all you rappers actin timid
I'm the best where I'm from you seen how I rapped against 'em
I feel as hungry as Eminem in the rap Olympics
I'll kill you and anyone in your city rappin in

Game changer
I just put my life into it
Half the time I'm writing to it
This is for who I influence
Game changer
Better than you guys who do it
Front those who don't like my music
On the low you riding to it...
