King Iso

Fucked around and signed a deal and I still wasn't happy (I still wasn't happy)  
Bought a bunch of brand new shit and I still wasn't happy (I still wasn't happy)  
Did a bunch of shit for people they still wasn't happy (they still wasn't happy)  
Thought that I beat the devil in the mirror still looking right at me  
I feel I can't win  
Fighting the demons within  
Oh lord where should I begin?

I don't know when I will be happy again
