

Hell Is Home

King Iso

Yeah

Check it out, uh

I been a vessel for the dark, I been a vessel for the light
I been livin' in a world that's hella negative
It's evident that people love the devil, give him life
I can never do no wrong, I can never do no right
But I do write well, never lose myself
And I'm feelin' really wicked here tonight
I can decorate a white room red
With the blood of a rebel with a mic
Who said Killa Rel
Could've never get a slice whose red
I'm original and never will I write you dead
Fuck it, I'm still starving the truth, built hard then renew
Then wrong 'cause it ain't all there
Still them wrong and the youth, it's on nigga
You been warned, no I ain't all there
Every time I come around, I'ma make y'all scared
Homicide on my side when I ride
Got a demon not an AR there
Babylon, gotta die, pray to God
Pray the mind that my name's all clear
Got a nine that's inside of my mind and it listen nigga, can't y'all hear
Is it fate y'all fear
Fuck fame, I'm seared to perfection, I been burnt out
I got a bunch of havoc 'cause my disc hurts now
I'll never get to heaven 'til this shit turn round
Middle finger to the world, I done did dirt now
Now, now kinda hard for me to change what a nigga got set in stone
In a world full of demons, I just hear screaming
Feeling like hell is home

In a dark world feeling like hell is home
In a dark world feeling like hell is home
In a world so violent, all I hear is sirens
Killers out here plotting, but I gotta keep ridin'
In a dark world feeling like hell is home
In a world so violent, all I hear is sirens
Killers out here plotting, but I gotta keep ridin'
In a dark world feeling like hell is home

I got a heart made of brimstone
I was born in the belly of the beast
So I go hard for my grim's own
Anybody that can tell I'm with the heat
Y'all don't wanna know what I been on
Killa Rel been a rebel with the heat
I can never be sane yo, I been gone
Niggas think I be the devil when I meet 'em
I don't wanna have to go imp on you niggas
Nighttime shit, go vamp on you niggas
I end with the killas
Come and take a trip to the dark side homie with a gimp for ya nigga
Man and I'm sicker, you've been warned
I got a legion of doom and I do perform
I got an army with me when the music's on

I flow through your speakers and take human form
'Cause I'm a monster, look at what the system made me
Freaking crazy, I'm a schizo baby
I'm a menace, I been desensitized
So when I do see murder that shit don't phase me
No liquor, no indo lately
They say that's raw, that's what I use to cope
And I'm so sick of people in auto-pilot
Like the world got niggas on cruise control
So, for those who know me, I chose and broke free
Indulge in info, I'm overdosing 'til I'm comatose, see
I have no fear where I'm at so we're clear
No, don't approach me
Nah, kinda hard for me to change what a nigga got set in stone
In a world full of demons, I just hear screaming
Feelin' like hell is home

In a dark world feeling like hell is home
In a dark world feeling like hell is home
In a world so violent, all I hear is sirens
Killers out here plotting, but I gotta keep ridin'
In a dark world feeling like hell is home
In a world so violent, all I hear is sirens
Killers out here plotting, but I gotta keep ridin'
In a dark world feeling like hell is home
