

Niggas act like they forgot  
ISO

Niggas tend to forget that I really been with this shit  
Ten years with an addiction, been ripping niggas to bits  
That's a decade plus I'm stepping up with 'em, busting their kicks  
Knock you up outta your tennis shoes when I hit 'em with this  
Let me lace you with game on how to ball, my nig'  
Keep shootin' your shot up until it falls, my nig'  
Peeps on your team will shoot at you but they all might miss  
Now you a star and they can't reach you, it all ties in  
Of how I'm really putting on, then I'm getting sicker  
But niggas be sicker than me because they freakin' bitter  
Like a fifth of vinegar or biting a chick for dinner  
Me and my son eating hibachi, y'all eating chicken tenders  
But did you pricks remember?  
When I was homeless tryna get a dollar  
Or coming up shorter than a midget stripper with a dick up in her  
Now I'm whipping killer, that's a fender bender  
You a tick tryna compete, that's a dick contender  
Spinning you, a fidget spinner  
You won't get picked on like Richard Fisher  
And now these thirsty fuckers all up in my Kool Aid  
Better get the pitcher  
Or go fix your printer  
They mad I'm flexing but they wasn't with me in the gym rocking call me Lynam  
rd Skynard  
With the pen I'm iller, you just penicillin  
Bitch I'm high, I'm literally in the ceiling  
I'm into sealing niggas up like a mortician did it  
Let me at 'em then you'd think I was dicking Morticia  
Nigga, best up on this shit I'm spitting  
I been a menace since a kid like Dennis  
Now I'm old dog, when you met your bro, mom  
Bitch I'm really tripping  
Because without it I wouldn't be just still speaking on her  
Bet I'll get to squeezing out the liquor like I'm penny pinching  
And I know some lickin' niggas with the business  
And the homie, Bishop grippin'  
We can son you quick, like a spittin' image  
In a minute we can get really ignant and kill you bitches  
Better back off of blood mix like ficki ficki ficki  
Forget it, I'm finna switch it  
I'm in the kitchen really whipping, tryna get a ticket  
I'm finna get it 'cause I'm sick, that mean I been comitted  
Literally my psychiatrist like "It's been a minute"  
Y'all might just get a visit  
Tell me I ain't came a long way like I been fucking all day  
And when I bust the cumshot they want the freaking distance  
Listen bitches I be hella sick of  
All you niggas tryna forget where I came from  
But ay bro

Just in case you forgot  
I was out here working, posted on that block  
Broke like one day this gon' pop, now I'm on top my nig'  
Just in case you forgot

Banging, slanging cages low, when will it stop?  
Now I made it, same ones hate it, in my face I'm sayin'  
Just in case you forgot it  
Yeah, yeah, yeah, yeah, yeah  
Yeah, yeah, yeah, yeah, yeah, yeah  
Yeah, just in case you forgot it  
Slanging cages low, when will it stop  
Yeah, yeah, yeah, yeah, yeah  
Now I made it, same ones hate it, in my face I'm sayin'

People in my city mad at me but who got the favors?  
Like I ain't did shit for you, did you drop some paper?  
Is it because before y'all was ahead of me, now y'all ain't in my pedigree  
Who local still and who rock with majors  
I'm blowing on these cookies counting guap, they hate it  
Every day I'm getting new ops' but you not the nation  
Paranoid at red lights I feel like 2Pac in Vegas  
But they love the King, my love is king, smooth operating  
Nigga, new conversation  
I'm looking for some backing just to really get it bracking  
Is it too complicated?  
I'm through contemplating  
How I'm the only one that's putting money into me  
But I just choose not to say it  
So, who got the payment?  
I promise you I'll take you to a level where the money coming through  
I can bake it  
Damu mimi ni mfalme, dreaming like royalty  
But royalties I hit 'em with that Uganda language  
Blood stains when I do pop the stainless  
I'm through building up these fake niggas  
Homie, you 'bout to cave in  
Same ones that hate to see me moving  
Now you cough to vapors  
Dumb, looking like a few thousand cavemen  
The hoes that wouldn't look my way be like "you sound amazing"  
Just now listening  
I'm like "Where the fuck was you back on some 2008 shit?"  
I can hear the hoes now like "We'll move out the state, then!"

This new loud I'm blazing is too loud  
I drain out what you 'bout to say, y'all on mute now, okay bitch  
My sister just told me she knew I would make it  
Can't wait to buy her and mom new houses, bathing  
I'm 'bout to get married and lose all the basic bitch numbers in my phone and do rubrication  
My circle got smaller but huge counts of paper came through so if you 'bout to hate on me, then...
