

Khadijah's Interlude

King Iso

Am I rude?
Well, where are my manners?
Is it true?
You can't seem to stand us
That's okay, I've been waiting on this
That's okay, out here plotting
We leaving, dark night scheming
Got no way, the fuck you up
A new way, I been staying up
A new way, to show you why
A new way, a new way
Niggas don't see me
So they must forgot that I'm around
But if you look up real quick I'm sure you'll see
All my shit bleeding
Your shit got potential, that's about it
Yeah nigga, I'm lit
What's that smell?
I believe that would be my attitude
Does that answer the question?
Am I rude? Where are my manners?
Don't mind it, my selection
When my choose
You can't stand beside us
