

# Run Away

King Iso

Run away, let's run away  
Run away, let's run away  
Run away, let's run away

I was young and just afraid  
Quiet, in a bunch of pain  
Needed help, no one had came  
Fuck it, I'll just run away then  
It taught me to numb my pain  
All my problems tucked away  
I just heard my lover say  
Fuck it, babe, let's run away then  
I was young and just afraid  
Quiet, in a bunch of pain  
Needed help, no one had came  
Fuck it, I'll just run away then  
It taught me to numb my pain  
All my problems tucked away  
I just heard my lover say  
Fuck it, babe, let's run away then

Used to doin' chores, funny, now I got the mop out  
Killer goin serial, just thinkin' 'bout my pops now  
Late night, jumpin' out the window like Ron Browz  
In my mom house, she gon' trip when she do find out  
Went to go fuck, came home, I was locked out  
Thought I was a king gettin' head from a drop-out (Yeah)  
Almost sent me to a home, that's where I'm now  
I was in a rush to be grown with an odd sound  
That's what I developed but your negatives, I blocked out  
From an ill mental condition, I was sick and lost child  
Back against the wall, wow  
Now I'm sittin' in a padded room while they walkin' by and lookin' like an a  
rt gal'  
The funny thing about it, everybody want my art now  
A nigga turnt up (Uh-huh)  
They used to tell me, "Calm down"  
Duckin' them sentences, jumpin' fences from the law now  
I made it to doublin' riches in a strange compound (Facts)  
Never ran it yourself, it won't die down  
Run away from peace when you see I got mine out  
Then you be decoded then you notice that it's time-out  
Kill it, finna rush, yeah, and you would think it's Moscow  
You was on your way up out the game, fi-five fouls  
Baby mama tell me, "I'ma show the tour tonight now"  
They be talkin' brazy on computers 'til I'm parked outside or that stick tal  
k 'til I pull the log out  
Face accountability, was never taught how  
Got my lady countin' plenty green up in a large pound  
Now I got a thousand enemies, nothin' to talk 'bout  
Fuck it, I'ma down this Hennessy while playin' Pac loud  
Thought that I was out of energy, I guess I'm charged now  
You can make it out of anything, ain't just a thought now  
They ain't help me, now it's pretty please with they palms out  
Now I'm livin' out my frickin' dreams and my mom's proud because

I was young and just afraid

Quiet, in a bunch of pain  
Needed help, no one had came  
Fuck it, I'll just run away then  
It taught me to numb my pain  
All my problems tucked away  
I just heard my lover say  
Fuck it, babe, let's run away then  
I was young and just afraid  
Quiet, in a bunch of pain  
Needed help, no one had came  
Fuck it, I'll just run away then  
It taught me to numb my pain  
All my problems tucked away  
I just heard my lover say  
Fuck it, babe, let's run away then

I be trippin' all the time you'd think I went on vaca'  
I'm sorry I can't take your photo, I don't wanna save face (I'm sorry)  
The fact that I be feelin' like my runaway days  
Locked into this state of mind but I'm a runaway slave (Uh-huh)  
When I started bangin' I said, "Fuck the eighth grade" (Oo)  
But now I'm on the road, what the fuck is straight A's (Fuck it)  
Told my lady love we could run away, ay  
Paranoia, she be yellin', "Put the gun away, babe"  
Middle finger to they lips, give a fuck what they say (Right)  
As a kid you just want love plus a safe place (Uh-huh)  
Mama out drinkin' like a [?] can't play  
I was juiced in the jungle like the stuff that they drank (Man)  
Step-dad mad, they ain't fucked in eight days (Nope)  
My sister said she hate me, tell my brother stay safe (Yeah)  
I love you when I'm leavin', wanna come?  
But hey wait, man, fuck it, I ain't leavin'  
It was such a great day  
Put my life in the music but did some stuff I can't say  
My mind, I'ma lose it, feel like a runaway train  
Off the track, I'm fallin' back in a what you may say's  
Retrogressive, yup because I was up, no mayday  
Who thought [?] let them suckers nay-say  
Custom AJs, yeah, plus I stay paid  
If I had one wish like the one dude Ray J  
It'd be fun in my world, where the fuck is Bebe?  
Kids, they be goin' through so much, can they play? (Man)  
Playpen 'til they send you up to State, wait (Uh-huh)  
Date to get played, yeah, what's a play date?  
Tell kids pray, but on the guns, what they prey (Right)  
Ironic how we're broken and no one to take breaks  
Numb the pain so much, could undertake Kane (Woo)  
It all ties in from our younger hay-days  
Not really but run it when you're young and afraid 'cause

I was young and just afraid  
Quiet, in a bunch of pain  
Needed help, no one had came  
Fuck it, I'll just run away then  
It taught me to numb my pain  
All my problems tucked away  
I just heard my lover say  
Fuck it, babe, let's run away then  
I was young and just afraid
