King Iso

Welcome to the dark side

Yeah... Iso...  
It's brainsick now niggas  
I'd like to thank Twisted Insane  
And everyone at Brainsick for putting me one  
All my Deadgang niggas  
Welcome to my story, huh!

Solitary a sleeping hole  
Secrets stacking up be exposed  
Rip the Bible up, Jesus knows  
The devil told me to keep my soul  
Summon spirits to keep control  
Dead language, I speak in code  
Golgotha I'm seeking gold  
And a gold spear and a decent robe  
Feel like the relics for me to hold  
To travel, dable, and preach in Rome  
Until the ending up the end unfolds  
I'll admit that you ain't even know  
I don't believe in either though  
Easy for me to sleep in yo  
Since I do I gotta teach it though  
For freedom, how far you think will go?  
Is Killa Rel a demon with a decent flow?  
I ran into Reali-t I need to know  
And Iso isn't even home  
To be a deity that we condone  
I wanna be a murder to leave your bones  
Meatless like when you sleep at home  
Faith is not what we bestow  
Truth is not what we should know  
Split up like apartheid  
Welcome to the dark side  
Make a nigga heart fried  
Please and no  
Run up on a car like hit you with the toll like  
Killa wanna spark first, to each his own  
Fuck around and make another demon rome  
When I get ready to release this song  
And the underworld where your people go  
Been to Hell through weed and blow  
Venom...

Welcome to the dark side  
Venom taking over make my heart die

So welcome to the dark side  
Venom taking over make my heart die

Welcome to the dark side...
