

# War Zone

King Iso

I did it  
From the trenches  
Real shit  
Yeah

Blood diamonds on my neck while I'm walking through this war zone  
Big bank on me, spend a check then I got it out the war zone  
Choppers on deck what you expect? I'm a product of this war zone  
In the mirrors everybody biggest threat 'cause inside you is a war zone, war zone (war zone)

The world is dark that's why you see me shining  
I don't look like what I been through  
Baby I'm out here surviving  
You gotta keep on fighting  
This war of ours is timeless

I rock conflict ice like glaciers that melt in Antarctica  
Don't believe in global warming, man I even heard the devil say it's hot as fuck  
But a heated discussion on media doesn't get hot enough  
But the market is to sell us all a new hell that's inside of us  
Now go run that product up  
Got through the pressure and made it, now look at these diamonds uh  
My lane was selfish like Chachi and that's what the problem was  
They place us in dark situations, we too busy sparkling up  
And chasing the slime like the deadliest designer drug  
See now you know how they fund their operation  
I'm doing the same here, the doctors come  
I'm sick of all kind plugs on 'em, they beat our purpose, popping quick like this chopper does  
I'm a weapon that formed it was prosperous  
Puffing and passing on all of this pot for luck  
A grave was they plot for us  
Could the opinion of all of us rebels be popular  
For change that is not enough  
And it was costing us  
So that's why I got my dollars up  
In a land with broken promises  
That don't fix a Bumbuna because  
Internal problems they can't solve for us  
Internal affairs ain't monogamous  
Police lights the only shine on us  
Clips loaded and we grinding bruh  
So if you asking why I'm rocking

Blood diamonds on my neck while I'm walking through this war zone  
Big bank on me, spend a check then I got it out the war zone  
Choppers on deck what you expect? I'm a product of this war zone  
In the mirrors everybody biggest threat 'cause inside you is a war zone, war zone (war zone)

Yeah, I'm sipping this alkaline  
They killed Alfredo, these chickens are outta line  
It Israel like 85, I told the homie free Palestine  
Hit the strip like Gaza to the west bank  
I'm really cashing out this time  
Everybody got a chopper  
All I ever see is K's like Calvin Klein  
I had sex with an alibi  
Fuck excuses, these people don't buy you time  
War with the physical, now remind  
I'm Dr. Jekyll, you just 'bout to Hyde  
If money was the root of evil, I'd want none  
Homie not a dime  
Cut a line down Superman's chest  
And tell Clark Kent fuck a dollar sign  
Knowledge is shot like Columbine  
Just get your paper and stay outta mine  
Manifest thoughts, what you got in mind?  
Dreams to fruition, sign a dotted line  
Niggas stay lyin' with a lot of pride  
In the jungle, everyday somebody die  
No pain like seeing mommas cry  
This the heartland full of homicide  
As far as beef, leave a op brain laying in his carne asada fries  
But we our own worst enemy  
Nowadays how we let 'em cloud our minds  
I'm always running with the rebels  
Gotta check the frequency from the powerlines  
Guns loaded, yep, now it's time  
From the dirt now I buy

Blood diamonds on my neck while I'm walking through this war zone  
Big bank on me, spend a check then I got it out the war zone  
Choppers on deck what you expect? I'm a product of this war zone  
In the mirrors everybody biggest threat 'cause inside you is a war zone, war zone (war zone)

Huh, shit  
I ain't at war with you niggas  
Y'all at war with me  
I don't go to war with niggas  
Niggas go to war with me  
And I'm at war with myself nigga  
Shit good thing I don't look like what I been through  
See me shining bitch  
From the dark nigga
