

## Dull Boys

King Krule

She don't see me  
She don't see me  
She doesn't see me  
She don't see me for what I am

I've lost all my dignity, she don't even mean that much to me  
I don't even know how this family tree really express  
Constant sound ease your mind [?]  
Her heart doesn't owe anything to your dignity  
Please

We must've lost that moment when we felt connected  
She reaches for the phone, well now she planned her exit  
See, somewhere along the line, she must've felt disconnected  
Seeing those shallow eyes of mine, might've been too well expected,  
what can you expect kid?

But her my body I don't know, I haven't felt much in a long time  
I just might as well see how it goes  
Spent a while I've been on my own, girl

I've lost all my dignity, she don't even mean that much to me  
I don't even know how this family tree makes things better [?]  
Her heart doesn't owe anything to your dignity  
Please

She won't forget me ever  
She won't forget me ever  
She won't forget me ever  
She won't forget me forever
