

## Empty Vessels

King Krule

Girl there is nothing to please  
Can't you just lay by my side  
Isn't it easy to see  
How I'm mistaken, my pride  
Must be somewhere else  
When this whole world  
Under 1000 degrees  
Baked till the earth was alight  
Cowards who run to the sea  
Just leaving me burning alive  
With this whole fucking world

And if you don't know just how  
This place came to burn and sink down  
With hot lead already buried in my crown  
They melted us down  
I must be from some kind of worth

And if you don't know just how  
This place came to burn and sink down  
With hot lead already buried in my crown  
They melted us down  
Must be from out of this earth

Play your games  
And other things  
Little things go wrong with the world  
Play your games

This slumped slacker seen better days  
His lovers parted lips had parted ways  
She still had a vital part to play  
Looking for that darker shade  
Picking up, bathed in his aftershave  
He wants to be discreet  
But can't help feel the mark he placed  
Upon his head, the masquerade  
Yo he can be seen in the masquerade  
Girl he can be seen from these darker days  
He can be seen from the masquerade  
Girl he can be seen from these darker days  
He can be seen from these darker days  
He can be seen
