

# Black Blood

King Los

Hands on the table, oooh yeah  
You killed my uncle back in '83  
Guns on the table, oooh yeah  
They killed my daddy back in '93

I seen too much and I'm just 23  
I know some killaz born in '96  
I'll take you back, I'll teach you how to swim  
I reminisce, I remi-  
I reminisce like I was 85  
Beyond your dollar sign and your skin  
I reminisce, I remi-, I reminisce, I-  
I know ya, I know ya hurt  
I know ya love me, I know the pain, it breaks my heart  
I know you love me, I know you hurt some  
I know what love is, I know ya

I know the black blood, make the grass grow, in the ghetto  
Black love, keep the sunshine, on your face, I know  
Black blood, make the grass grow, in the ghetto  
Black love, black love  
Black blood, make the grass grow, in the ghetto (I know)  
Black blood, make the grass grow, in the ghetto (I know)  
Black blood, make the grass grow, in the ghetto  
Black blood (black blood), I know (I know)

They killed my pop when I was just sixteen (Oh no no)  
They took my innocence away from me (No no no)  
In my hood I done did some crazy things (Oh no no)  
But that's all the shit that made me a king (No no no)  
Cause I still see the sun rise, and the moon shine  
I look in my son's eyes, and I'm grateful two times  
And two types of niggas where I'm from, and they both the same  
Know yourself, know the streets, know the game, know the pain  
Novocain make me numb, know the chains make me dumb  
Chain me to my brother, hate each other 'til we eighty something  
Make me run from myself, this like my own flesh  
So we on bullshit, just like I'm on jets  
Oh yes, time's hard, you all stressed, your mind's gone  
Going through a large test, hard-pressed to find God, define God  
Look in the mirror, you might find God  
Even though we full of sin we full of him, defy odds  
My scars match his as long as I've been beat down  
I should have nails through my hands and my feet now  
He was on the cross said speak, now I'm hearin' you  
Saved by the blood, he might leak down a miracle  
Gotta be the-

Black blood make the grass grow in the ghetto  
Black blood keep the sunshine on your face, I know  
Black blood make the grass grow in the ghetto  
Black blood, black blood  
Black blood, make the grass grow, in the ghetto (I know)  
Black blood, make the grass grow, in the ghetto (I know)  
Black blood, make the grass grow, in the ghetto  
Black blood (black blood), I know (I know)

In the ghetto (Ghetto)  
Black blood, make the grass grow  
Ohhh, ohhh (Ohhh)  
Ohhh, black blood (In the ghetto)  
(Ghetto) Black blood, ohhh
