

# Burn Slow

King Los

Let the past burn like the ash burn  
I remember last time they said this was my last term  
But paths turn and directions changed  
And we know respect has changed and perspectives changed  
Some niggas respect the game, some niggas neglect the changes  
Fuck it, I accept the blame  
I feel it's foolish to lecture lames  
So those of you that chose to have goals just perfect your aim  
For all the shit that we was never told  
We probably poor cause they said good names was better than gold  
And I'm willing to bet it in gold  
That I'll never change for all the chains embedded in gold  
She felt that any type of warmth was better than cold  
Cause nowadays just being comfortable is better than growth  
I mean who gets who better than Los  
But those who yet to succeed feel they better than most  
It's like they disagree with history  
Let's pretend this is isn't me and just agree to disagree  
They dissin' me, I distance me  
Persistently consistently  
Assisted by the shit in the swisher  
Nigga watch it...

Burn slow, burn slow  
And when you burn it baby, burn it baby, burn slow

I hope all your grindin' pay off and turn to dough  
I hope your niggas never snitch and turn to po'  
I hope your bitches is faithful and never turn to hoes  
I hope when you roll that shit and light it's burning slow  
Cause when it's burning baby, when it's burning baby, burn slow

Take a look at me, you gone fuck around and see success  
Admire how I dress, know I'm smoking on the best  
On my way up, got my cake up  
I remember them long night I had to stay up  
In the chronic, I was just hustling  
A young nigga out here tryna make something from nothing  
Nothing is was niggas gave us so I put both of my chucks in  
Making sure promoters pay us, making sure labels gon' slave us  
Now my merch fill up trucks, Perrier-Jouët fill our cups  
I hear 'em talk but they don't walk, they're haters, they don't want what  
I'm from a place where paper talk so you should shut the fuck up  
Pounds I blow those, real niggas I know those  
We ain't cut across no roads me and my niggas...

Burn slow, burn slow  
And when you burn it baby, burn it baby, burn slow

I hope all your grindin' pay off and turn to dough  
I hope your niggas never snitch and turn to po'  
I hope your bitches is faithful and never turn to hoes  
I hope when you roll that shit and light it's burning slow  
Cause when it's burning baby, when it's burning baby, burn slow

Y'all niggas running in places, I'm running the place  
I question some of your greatness, I summons the greats

Must I include that I conclude what you come to debate?  
Cause you come to degrade, but you never come to the bank  
You find comfort in rink, I'll find you, and come for your rank  
Like how the fuck you play tough but don't come to the paint  
I ain't brushin' niggas off, I'm comin' to paint  
Just tryna double my cup and lean niggas like cups full of drank  
Drink it, slowly homie, don't OD like an OG told me  
My Rollie was forty, Bodie you don't know me, I roll with rollers and riders  
Riders, yeah, we 'bout it, 'bout it, yeah  
And by the year, 2013 I got a lot to hear, it's a lot of scared  
Niggas cause they dealin' with they feelings, but they dealin' with a villain  
I'm a kill 'em cause they chillin' and I never get no sleep nigga  
If it ever gets so deep nigga, I'm a never get to know these niggas  
Know me nigga, I'm dope like a whole key nigga, you a ho not a homie nigga  
You bitch niggas can't hold me nigga, so it's back to old me nigga  
King...

Burn slow, burn slow  
And when you burn it baby, burn it baby, burn slow

I hope all your grindin' pay off and turn to dough  
I hope your niggas never snitch and turn to po'  
I hope your bitches is faithful and never turn to hoes  
I hope when you roll that shit and light it's burning slow  
Cause when it's burning baby, when it's burning baby, burn slow
